## 22 Important maintenances precautions

In order to offer Tokio Time with good maintenances, please always follow the below basic precautions:

- Keep it in a safe distance from the strong magnetic field.
- Keep it away from water.
- Keep it and its accessories away from children.
- Prevent it from falling or impact during usage, as this may cause damage to it.
- Do not use your Tokio Time in a extremely humid environment, because moisture penetrates inside and may damage it without the possibility of repair.
- Do not clean your Tokio Time using harsh chemicals, detergents and chemicals that can dissolve the plastic.
- Do not place other objects on LCD screen, as it may crush and damage the LCD screen.
- Do not use any sharp objects to touch the LCD screen, as this will scratch the screen.
- Do not attempt to dismantle your Tokio Time by yourself to do any repair, this will damage it and void the warranty.

## 23 Battery Management

The battery is not fully charged from factory, so it is recommended that you charge the battery for at least 1 hour before you start to use the device.

The rechargeable battery is designed and manufactured to be used and recharged frequently. As same with all of lithium batteries, the capacity of the battery reduces each time it is charged. However, you can still try to prolong the battery's lifetime by following the suggestions below:

- Use your Tokio Time at least once a week.
- Fully charge the battery regularly.
- Never leave the battery fully discharged for a long period of time.
- Always keep the device and the battery away from heat and moisture.
